- 2015: Construction of a new production and assembly hall

Useable Area:

- | | |
|--------------------|-----------------------|
| ■ Production halls | 6,793 m ² |
| ■ Office space | 526 m ² |
| ■ Staff rooms | 196 m ² |
| ■ Total floor area | 7,515 m ² |
| ■ Interior space | 71,793 m ³ |
| ■ Land area | 16,098 m ² |

Scope of Supply

Portfolio:

- Production of testing machines and testing equipment for building material tests (concrete, cement, etc.):
 - Testing and laboratory equipment for building material tests
 - Laboratory furniture with integrated testing equipment for concrete, cement, mortar and additive laboratories
- Production of:
 - Static universal testing machines
 - Dynamic testing machines
 - Special testing machines / customer-specific test systems
 - Fatigue test systems
 - Structural test systems
 - Torsion test systems
 - System components and accessories
 - Control electronics and test software
- Special testing machines acc. to customer requirements
- Modernizations
- Second-hand machines
- Distribution of merchandise for building material testing
- Sectors: Automotive - aerospace - building material - ceramic - metals - medical engineering - plastics - rubber/elastomer/springs - universities - wood
- Delivery service: Germany, Europe, all over the world

Business Activities:

FORM+TEST Seidner & Co. GmbH offers a wide range of services:

- Development
- Project work
- Construction (Siemens NX, WSCAD)
- Machine building:
 - steel work / welding / turning / milling / grinding / painting / assembly
- Turning / milling / grinding
- Steelwork, welding
- Hydraulics, pneumatics
- Electrics, electronics, software
- Quality control
- Commissioning
- Services:
 - maintenance, repair, DAkkS calibration, etc.

Our qualified and dedicated team as well as our production equipment are always up-to-date.
